

**Zutron Medical** would be happy  
to make your day **a little easier**

## Valve Storage Bag

- **Traceability**  
Designed to help ensure the traceability of critical endoscope components after reprocessing
- **Easy to use**  
Simply open the mesh bag and place valves and accessories in the Valve Storage bag and tie securely onto the endoscope (around the biopsy port if possible)
- **Single Use**  
The Valve Storage Bag is for one time, single use only.
- **Low cost**  
The Valve Storage Bag has a low cost per use compared to other storage systems
- **Order # ZUTR50520**  
100 mesh bags per case

## Valve Storage Basket

- **Traceability**  
Designed to help ensure the traceability of critical endoscope components after reprocessing
- **Easy to use**  
Locks onto the endoscope without concealing any parts
- **Design**  
Large openings allow solutions through to clean valves effeciently.
- **Single Use**  
Cannot be re-used. Smar-Click technology ensures cage is broken and therefore prevents re-use.
- **Order # ZUTR50519**  
100 baskets per case
